

# PV624

## Portable hybrid pressure controller

The PV624 is a portable hybrid pressure controller base station that combines the advantages of manual pressure generation and fully automatic pressure control.

Part of the only truly modular calibration system

Fast and efficient pressure generation with exceptional stability at high pressure

Combining manual pressure generation, with automatic control technology

## High speed to stable set point

**Take one minute** to see the speed and control stability of the PV624.
